PROFILE SYNOPSIS

- ❑ Technically competent, performance-focused IT professional with 7+ years of experience in Cyber Security, focusing on the areas of Identity and Access Management (IAM).
- ❑ Relevant experience in large corporate/multinational environment in delivery, Engineering and operational roles.
- ❑ Strong written and verbal communication and presentation skills, teamwork, and client service skills.
- ❑ Acumen in applying technical expertise to develop insightful solutions applicable to current business practices
- ❑ Acted as the information security liaison for the Okta IDaaS platform and Supported analysis of Okta configuration and policies to identify security and operational gaps
- ❑ Defined and setup approach for Adaptive MFA and application access control and managed ABAC/RBAC
- ❑ Hands-on experience in, Identity & Access Management, Application Onboarding (SAML, OIDC, SPA, SWA), Engineering, administration, support, and troubleshooting
- ❑ Experience in new application integrations and environment upgrades to SSO operations.
- ❑ Experience with identity management, provisioning, user lifecycle operations, federation, and on - premises integrations.
- ❑ Experience in configuring High Availability solutions.
- ❑ Experience with managing Okta Mastered Users, Application with Single Sign - On (SSO) and application provisioning.
- ❑ Experience with Integrating Okta with Active Directory Mastered Users and LDAP Master Users.
- ❑ Demonstrated strengths in troubleshooting root cause analysis, resolving complex technical problems, utilizing advance tools and resolution procedures, isolating product defects, and providing product enhancement opportunities
- ❑ Capable of handling multiple activities simultaneously and meet deadlines under pressure
- ❑ A particular desire to continually study new technologies and functionality, as well as be involved in projects that push the capabilities of existing technologies.
- ❑ Widely shown flexibility, quick learner, proactive attitude and an amazing team player with leadership skills.
- ❑ Holds high personal standards and consistently leads cross-functional teams to achieve company objectives.

- ❑ Demonstrated excellent communication/problem solving/analytical skills while working in cross-functional team environments and with clients from diversified backgrounds.

SKILLS SET

- ❑ Bachelor of Technology in Electronics & Communication Engineering from Dr. B.C Roy Engineering College, West Bengal (India)

CAREER TIMELINE

- | | |
|----------------------|--|
| Feb 2023 -Present | Senior Consultant (CIAM) -
Deloitte Hong Kong |
| Sep 2021 - Feb 2023 | Associate (Cyber Transformation) -
RSM US LLP |
| July 2019 - Aug 2021 | Software Engineer (IAM/UAM) -
Capgemini |

KEY DELIVERABLES

At Deloitte HK (Okta, LoginRadius)

- ❑ Implemented and managed Okta's IAM solutions, ensuring secure access to applications and systems.
- ❑ Supporting a multi-layer secure authentication infrastructure, working on implementing SAML, Single Sign-On (SSO) and Multi-Factor Authentication (MFA) to enhance security and user experience.
- ❑ Integrated Social Login Platforms (Facebook, WeChat, Apple) options over an e-commerce website.

- ❑ Worked on implementing a SaaS CIAM product called LoginRadius into client's environment.
- ❑ Proficient in creating a sequence flow diagram for SSO / Social Login Architecture and design.
- ❑ Automated user provisioning and deprovisioning workflows, reducing manual tasks and minimizing errors.
- ❑ Integrated Okta with HR systems to streamline user onboarding and offboarding processes.
- ❑ Integrated numerous applications across various technology stacks with Okta, ensuring seamless and secure access for end-users.
- ❑ Developed and maintained custom integrations using Okta APIs and SDKs, which helped in automatizing several manual tasks.
- ❑ Implemented advanced security policies and protocols, such as adaptive authentication and risk-based access controls.
- ❑ Experience with cloud authentication services (Okta) (SAML, OIDC, SPA, SWA)
- ❑ Demonstrated ability to coach others to quickly learn new IT and security concepts and technologies
- ❑ Demonstrated ability to model and design methodical procedures to define routine work; demonstrated ability to be innovative in procedure design
- ❑ Demonstrated ability to model independent sound decision making and coach others to grow their ability in decision making skills.
- ❑ Experience leading other technical security staff, mentoring junior engineers
- ❑ Offered ongoing support and troubleshooting for Okta-related issues and Incidents, achieving high user satisfaction.
- ❑ Analysed usage patterns and metrics to identify and address potential bottlenecks.
- ❑ Collaborated with cross-functional teams, including IT, HR, and business units, to align Okta solutions with organizational needs.
- ❑ Presented Okta implementation updates and performance reports to stakeholders.
- ❑ Reduced login-related helpdesk tickets by 50 percent through effective IAM practices and implementing those
- ❑ Achieved 70 percent faster user onboarding process by automating provisioning workflows.
- ❑ Enhanced security posture, resulting in zero security breaches related to identity management.

At RSM US LLP (Okta, Auth0)

- ❑ Provide well-thought out and reliable direction, both in technical and non-technical terms, to help customers Integrate, deploy and maintain the Okta service.
- ❑ Experience with deploying one or more IAM solutions, including user provisioning, role-based access control, authentication and authorization such as Okta and Active Directory.
- ❑ Integration of Okta with Cloud Applications such as Office 365, Entra ID, Google Apps, Salesforce, etc.
- ❑ Planning and Integrating On-premise Microsoft Active Directory with Okta Universal Directory to sync organization user as per the business needs.
- ❑ Integrated and configured on-premises Active Directory, managing password policies and user management within Okta.
- ❑ Hands on experience on building automated LCM workflows, Event and Okta workflows.

- ❑ Implementation experience with SSO and federation using SAML 2.0, Oauth, OIDC.
- ❑ Implemented Auth0 as an authentication and authorization solution for cloud applications and various other applications across multiple tech stacks.
- ❑ Worked on User Lifecycle Management in Auth0
- ❑ Lifecycle / End of Support Management (JML)
- ❑ Identity & Access Assurance (User Provisioning/De-Provisioning).
- ❑ IT Security Management
- ❑ Configured Secure Single sign-on and Multi-Factor Authentication in Auth0.
- ❑ Experience with deploying role-based access control for end-user's authorization in Auth0.
- ❑ Documented Solution Design, configurations and Runbooks deliverable.

At Capgemini (Active Directory, LDAP)

- ❑ Responsible for Supporting for user provisioning related incidents like creating IAM users and roles using AD.
- ❑ Participated in creating and Managing Active Directory Users and Groups across multiple applications, Member access profiles.
- ❑ Managed of creation and deletion of accounts, Agency access, profile Additions and assigning roles to the user in SAP Identity Manager.
- ❑ Provided support services to other technical teams and liable for troubleshooting, communicating with site technicians and track problems through resolution, escalating problems to appropriate stake holders, Reporting critical Backup failure.
- ❑ Active involvement in Auditing changes to security policies, failed logons, admin accounts file and folder management, Incident management, Change Management, Communication management and RAID configurations.
- ❑ Responding to incidents, carefully track and document all issues and resolutions in detail. Adding to knowledge base of the IAM and is a record of the health of the system. Updating ticketing system.
- ❑ Oversaw the entire daily maintenance of hardware, software and environmental alerts or malfunctions.
- ❑ Experience in troubleshooting security and permission related issues inside AD.
- ❑ Performed administrative controls over different servers.

TECHNICAL SKILLS

IAM SOLUTIONS	Okta , Auth0, LoginRadius
PROGRAMMING	Python: API Integration for HTTP methods
CLOUD SERVICES	AWS and Azure IAM Services
TECHNOLOGY AND INTEREST	SAML, OIDC, SSO, MFA, Cybersecurity, Blockchain, Authentication, Authorization, Postman API Testing
